Though we anticipate an appeal on behalf of Women's Med Center, we are certainly encouraged by this decision which upheld the lower court's decision as well. "At least twice now in the past 2 years, our courts have said that the Ohio Department of Health has the authority to 'revoke, suspend, or refuse, to renew the license' of this facility," says Margie Christie, Executive Director of Dayton Right to Life.

"We hope that the Ohio Department of Health will act swiftly in closing the doors of this unlicensed facility. How long must our children and women wait for justice? Women deserve better than abortion and our children deserve protection," she adds.
