Heartbeat Pro-Life Law Sent to Governor Kasich's Desk

In a late night session yesterday, the Ohio House concurred on H.B. 493 with the Heartbeat Protection Amendment attached. It now moves to the Governor Kasich's desk, however, with budget appropriations attached, he now has the ability to line item veto portions of the legislation.

We are urging our pro-life supporters to Contact Governor John Kasich to sign H.B. 493 including the Unborn Heartbeat Protection amendment without veto. Click the link below:
